RED OAK TECHNOLOGY SELECT FUND

ROGSX

Mark W. Oelschlager, CFA
Co-Chief Investment Officer
& Portfolio Manager

Mark W. Oelschlager, CFA, is the Co-Chief Investment Officer of Oak Associates Funds and the Portfolio Manager of the Live Oak Health Sciences Funds,

the Pin Oak Equity Fund and the Red Oak Technology Select Fund. He has served as an Equity Research Analyst for Oak Associates, Ltd. since 2000. Prior to joining the Adviser, Mr. Oelschlager served as an Equity Securities Analyst for State Teachers Retirement System of Ohio. Mr. Oelschlager holds a BA in Economics from Trinity College, a Masters in Business Administration from The Ohio State University, and the Chartered Financial Analyst (CFA) designation. Mr. Oelschlager has more than 24 years of investment experience.

FUND INVESTMENT STRATEGY

Red Oak Technology Select is a sector-specific fund which seeks long-term capital growth by investing primarily in stocks of companies which rely extensively on technology for their product development or operations. The Fund also seeks companies whose earnings and sales growth may be driven by technology-related products and services. The investment process involves identifying what the manager believes to be the most attractive areas within technology and narrowing the search to individual stocks. The manager generally does not base stock selections on a company's size, but rather on the assessment of its fundamental outlook. The manager invests with a long-term focus and seeks to keep the Fund's portfolio turnover to a minimum relative to its peers.

ABOUT THE ADVISOR

Oak Associates, Ltd. is a nationally recognized growth equity investment advisor. Founded in 1985, Oak Associates has managed quality growth portfolios for national endowments, public pension plans, private clients, and mutual fund investors. A concentration in key growth areas, diligent research and a focus on long-term performance have been integral to the company's success. Oak Associates takes very seriously the trust that its clients and shareholders place with the firm. It is worth noting that employees, friends and family of Oak Associates are among the largest investors in Oak's mutual funds. As fellow shareholders, employees have a vested interest in ensuring that the highest standards are maintained and that the portfolios are positioned for future growth.

To determine if this fund is an appropriate investment for you, carefully consider the fund's investment objectives, risk factors, charges and expenses before investing. This and other information can be found in the fund's prospectus, which may be obtained by calling 1-888-462-5386 or visiting our website at www.oakfunds.com. Please read it carefully before investing.

Mutual fund investing involves risk, including the possible loss of principal. Funds that emphasize investments in technology generally will experience greater price volatility. There are additional risks associated with investing in a single-sector fund, including greater sensitivity to economic, political, or regulatory developments impacting the sector.

The S&P 500 Equal Weight Information Technology Index imposes equal weights on the index constituents included in the S&P 500 that are classified in the GICS information technology sector. One cannot invest directly in an index. Lipper Science & Technology Funds Average—Funds that invest primarily in the equity securities of domestic companies engaged in science and technology.

Alpha - Measure of risk-adjusted performance. Beta - A quantitative measure of the volatility of a given stock relative to the overall market. R2 - A correlation measure between daily returns on the stock and the index's average returns. Standard Deviation - A measure of a security's stability over a given period of time. Sharpe Ratio - Measures risk-adjusted performance. P/B Ratio represents equity securities within the Fund's portfolio, and is not intended to demonstrate Fund growth, income earned by the Fund, or distributions made by the Fund. P/E Ratio is a valuation ratio of a company's current share price compared to its per-share earnings. Turnover is the number of shares traded for a period as a percentage of the total shares in a portfolio or of an exchange.
